Careers Untapped Webinar

Tuesday 13th December 2022, 16:30 - 18:00

ABOUT THIS EVENT

Join us in our first of 3 webinars introducing young people to specialist careers in the NHS. The series of webinars will cover a variety of careers including facilities, radiography and project management to name a few!! Working for the NHS doesn't mean you have to be a doctor or nurse, and the aim of this event is to show you how other careers contribute to our wonderful healthcare service.

TARGET AUDIENCE

Young people aged 13-18, anyone interested in understanding careers in healthcare and careers advisors who want to know more about the lesser-known roles in healthcare.
